Machine specifications

Description	Article code	Dimensions
		L x W x H (cm)
Stationary bin filler	3050000.00200	350 x 100 x 165
Extension-set bin table (pro table)	8305990.00300	
Bin removal plate	8305990.00400	

Stationary bin filler

The bin filler is equipped with a positioning system for the bin. When the bin is full, the filler will automatically take its highest position. After changing the bin, one button is pressed and the filler will automatically lower itself into the bin, and the filling will restart.

Double bin filler on request
